36. The method according to Claim 33 wherein the elongate member comprises a single body.

37. The method according to Claim 33 further comprising connecting the elongate member to the ends of the first and second shafts.

38. The method according to Claim 33 wherein the first and second shafts are symmetrically aligned with respect to an imaginary symmetric plane bisecting the first and second support frames.

REMARKS

It is believed that all of the claims are patentable over the prior art. For better readability and the Examiner's convenience, the newly submitted claims differ from the translated counterpart claims which are being canceled. The newly submitted claims do not represent changes or amendments that narrow the claim scope for any reason related to the statutory requirements for patentability.

Accordingly, after the Examiner completes a thorough examination and finds the claims patentable, a Notice of Allowance is respectfully requested in due course. Should the Examiner determine any minor informalities that need to be addressed, he is encouraged to contact the undersigned attorney at the telephone number below.
